ance Notes on Codes and Abbreviations" appearing at the begin-  
ning of each regular issue of the PCT Gazette.

(54) Title: EMERGENCY ESCAPE MASK

(57) **Abstract:** An escape mask that enables one to breathe filtered air compris-  
ing, A. a foldable pocket size hood to cover the entire head, comprising: 1. a bag  
made of transparent plastic film material impermeable to gases, 2. a multi-layered  
filter assembly containing at least one filter layer containing an antiseptic effective  
against microorganisms and at least one filter layer containing activated charcoal,  
said filter assembly being adhered to the bag over an aperture in the bag in the  
area where the mouth and nose would be for someone wearing the mask, 3. an  
exhalation valve embedded in the filter assembly, and B. separate sealing means,  
not connected to the bag, to seal the bag around the neck, enabling adjusting the  
bag over the head to reduce the free space inside the hood and to adjust the exha-  
lation valve against the lips.
